The Chicago Committee

The Chicago Committee is a group of senior business and professional leaders from the Chicago area who are concerned with the serious problems confronting the United States. The Committee meets regularly:

To present to its members distinguished leaders in our own and foreign governments, as well as leading personalities in business, the press and academic circles for off-the-record discussions of vital issues affecting the international relations and foreign policies of the United States;

To analyze and discuss the ideas presented;

To conduct such other related activities designed to inform its members on world affairs as the Executive Committee shall determine.

The Committee is sponsored by the Chicago Council on Foreign Relations, a nonpartisan organization founded in 1922 to inform citizens of this area through addresses by leading statesmen, through discussion groups and other activities, of significant international issues and their bearing on American foreign policy.
